

Section 4.0: INSTRUCTIONAL PROGRAM

4.10 INSTRUCTIONAL GOALS

The School Board, Administration, and Faculty will provide a high quality education, which will encourage and assist every student to:

- enjoy an environment of learning, growth, and development in arts, sciences, humanities, and technologies;
- develop creative, critical, and independent thinking skills;
- develop skills and experience as team members as well as leaders;
- develop a high level of oral and written communication skills;
- question, search for information, and make use of the school's and community's resources;
- discover and develop their own particular aptitudes and abilities;
- take responsibility for themselves and respect the rights of others;
- expect honesty in all personal and social activities from all members of the school;
- participate in curricular and extra-curricular activities, including community service;
- promote the ideals of peace and justice through knowledge and understanding of contemporary issues in a multi-cultural world;
- Prepare for a successful transition to higher education.
